

Bulk Social Security Searches

by Noah W - Thursday, January 24, 2008

<https://www.searchbug.com/info/2008/01/bulk-social-security-searches/>

Over the next few weeks I will be answering several questions we get asked quite often. The first question is.

Do you guys offer bulk searches?

A quick simple answer is yes, but it's just not that easy. Most of our searches are performed on an individual and personal basis by private investigators so when we hear this question we often have follow up questions to best answer this one.

Some of our questions include; what kind of bulk searches? If you have hundreds or even thousands (tens of thousands or hundreds of thousands are best) of records in a database that you need "cleaned" or matched, those are service we provide but not on our standard web site.

If you have a bulk search need, it's best to call our office or use our [online contact form](#) and we can work up a custom quote for you.

For example; if you are a university, medical facility, research group or other type of institution or business and have years worth of old patient or customer records and you need to figure out which ones are deceased, that is something we can do for you quickly and inexpensively.

You can simply supply us with a text file of Social Security Numbers and we will return a file that tells you the number of valid Socials, along with invalid Socials as well as which Socials Security numbers have been reported as deceased.

Turn around for bulk Social Security Death records could be as quick as 24 - 48 business hours and if you have over 150,000 records can be just a few pennies per record.

Bulk Social Security Searches

by Noah W - Searchbug Blog - <https://www.searchbug.com/info>

We can do similar bulk searches for reverse cell phone information (albeit not as accurate as an in-depth private investigator search) but when you have hundreds or even thousands of Social Security Numbers, cell phone numbers or names that you need phone numbers for; you have to consider a bulk database provider.
